

GROUND BREAKING

OUTDOOR POWER SOLUTIONS

Legrand's Outdoor Ground Box delivers safe, permanent power to any outdoor space. The durable in-ground box has been tested to ensure safe operation in any weather condition- all year round. Perfect for commercial settings, the Outdoor Ground Box conveniently provides power, communications, and A/V while seamlessly blending into any landscape.

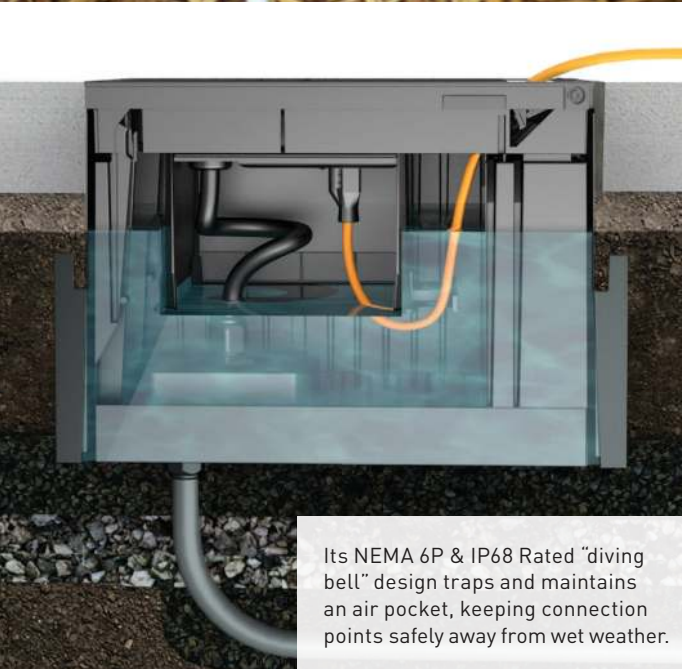

FEATURES & BENEFITS

Safe & Secure

- Tested and listed by Underwriters Laboratories, Inc. for use in all weather conditions – all year long
- The innovative “diving bell” design is NEMA 6P & IP68 rated to trap and maintain an air pocket, keeping connection points safely away from wet weather
- Lockable security cover prevents unauthorized access
- Smart egress door auto-adjusts to the size of cables and locks in the closed position when not in use
- Listed for use in the US and Canada

Versatile & Durable

- Its ANSI/SCTE 77 Tier 5 rating means it can hold up to a 5,000 pound load, so groundskeeping tractors and mowers are no problem
- Flexibly meeting the needs of any outdoor space, the unique, modular interlocking design allows multiple boxes to be ganged together in one installation
- Constructed with UV and chemical-resistant materials to enhance durability
- Available in three natural finishes – black, brown, and gray
- Installs flush with the ground to reduce trip hazards and seamlessly blend into a variety of outdoor surfaces such as mulch, grass, concrete, pavers and more
- Available in single or two circuit versions, as well as in multiple power and low voltage configurations to meet the needs of any installation

Its NEMA 6P & IP68 Rated “diving bell” design traps and maintains an air pocket, keeping connection points safely away from wet weather.

GRAY

BLACK

BROWN

The Outdoor Ground Box comes in three finishes to complement any outdoor space. It's available in a host of configurations to suit your needs.

2-gang, 20 amp duplex receptacles (Available in single or two circuit versions)
