

Audio/Video Connectors, Gold Speaker Post

Universal Keystone Design fits in all Hubbell Products.

Gold-Plated Connection.

Screw-Style or Plug-In Installation for Quick and Easy Termination.

Industry Standard Banana Plug Style Connection.

High-performance, Gold-plated speaker posts.

High-impact, flame-retardant polymer.

Quick and easy screw-style connection.

SPECIFICATIONS

- ◆ **Connector:**
Body: Brass
Plating: Gold 2μ"
- ◆ **Material:**
Housing: Flame Retardant Polymer (UL 94V-0)
- ◆ **Ring Color:** Black and Red.

Hubbell's Gold AV Speaker Post connectors provide a perfect solution for distributing audio signals throughout the home, office, classroom or to a work area. Requiring no soldering, these gold speaker post connectors install with a "snap" and provide a quick, easy screw-on or plug-in termination.

These gold speaker posts are available in 7 standard Hubbell colors and flush mount into all **iSTATION™** face plates, modules, frames, surface housings, Hubbell Delivery System products including poke-throughs and surface raceway, and **iSTATION™** UDX multimedia panels.

Create a customized multimedia workstation by adding a Gold AV speaker post along with Hubbell's other AV modules or **XCELERATOR™** jacks.

CONNECTOR TERM

Speaker Post: Binding post is a connector commonly used on loudspeakers and audio amplifiers as well as other electrical equipment. A binding post contains a central threaded metal rod and a cap that screws down on that rod.

Banana Plug: Is a single-wire (one conductor) male electrical connector used for joining wires to equipment. Commonly used on the cables connecting audio equipment, amplifiers or receivers to the loudspeakers or home sound systems

Color-Code:
Red: + positive
Black: - negative

APPLICATIONS SUPPORTED

- Home theater.
- Surround sound systems.
- Entertainment systems.
- Speaker connections.

INSTALLATION TIPS

Important: Always allow for clearance behind connection location to ensure for proper bend radius.

Gold Plating: Gold plating encapsulates the connectors base metal (brass) preventing oxidation/corrosion from forming. It also has a more transparent (signal) conductive path over Nickel (3x), which is closer to copper it's transmitting over.

CABLE TERMINATION

Cable Type: 14-24 AWG stranded.
