Signaling units

Modular tower lights

Harmony type XVU Ø 60

Harmony® XVU modular tower light with innovative features

The mix of homogeneity light and true color improves the aesthetic of the tower light

The Harmony XVU modular range of tower lights are 360° pilot lights and commonly used signaling product for a wide range of applications. These tower lights are visual and audible signaling units that comes with a combination of innovative features, high performance and simplicity.

High performance light

- > True color and homogeneity light
- > Improved visibility
- > LED super-bright flash with long life performance

Customized voice message

- > A free of charge configuration software allows to customize the audible signals via SD card
- > The sound unit plays voice message when customer inputs PLC signals
- > Adjustable volume up to 86dB at 1m/3.281 ft

Playlist Builder

Configuration of audible signal via Playlist Builder software

Innovation

> These tower lights offer innovative features with:

Multi-color LED unit

- Multi-color LED unit with a choice of six colors and four light patterns

Height adjustable pole mounting

- Pole mounting with height adjustable tube allowing the adjustment of the column height without any tools

Flexible mounting unit

- Flexible mounting unit for use on horizontal or vertical support

Pulse signal unit

- Pulse signal units use pulse signals in single wire to control the tower light

Simplified wiring

- > Pulse signal units use one signal wire to define different types of signaling
- > Flexible and configurable light patterns
- > Up to 256 different combination of audible and visual signals
- > Up to 16 different combination of visual signals (color combination)
- > One pulse signal multi-color unit can be implemented instead of several single color illuminated units
- > Reduction in I/O wires to connect PLC with tower light
- > CE, UL, CSA, and PCT certified

Addition of pulse signal unit to the existing range of Harmony XVU tower lights

Aesthetic design

- > Available in black and metallic silver body
- > Reduced diameter (Ø 60 mm/2.362 in.) makes them suitable for small equipment
- > Aesthetic design distinguishes them from other tower lights

Stylish design available in Black and metallic Silver body

Pulse signal unit enables up to 75% reduction in wiring

Simplicity

- > Simple and easy assembly without use of any tools
- > Convenient mounting option with: direct mounting, pole mounting and three-in-one adjustable wall mounting

With the indicator marks, the units are simple and quick to assemble

Good resistance

- > Resistant to dust and water and are UL/CSA compliant
- > The illuminated units have IP 65 degree of protection, and are resistant to cutting oil
- > Audible units have IP 54 degree of protection

IP 65
IP 54

Degree of protection and compliance

→ Industrial applications

Ideally suited for automotive, machine tools, material handling and electronic equipment industry.

Signaling Units

Modular tower lights

Harmony type XVU Ø 60

Tower lights for customer assembly (up to 5 units)

XVU tower lights

Presentation

The Harmony XVU modular range of tower lights are visual and audible signaling units indicating various states, operation sequence or installation of a machine. Their reduced diameter (Ø 60 mm/2.362 in.) makes them suitable for use on small equipment and their aesthetic design distinguishes them from other tower lights. The availability of black and metallic silver body makes them ideal for use in automotive, machine tools, material handling and electronic equipment industry.

This range has an advantage of:

- "Super bright" LED
- Easy installation and mounting without use of any tools
- Simple assembly due to the indicator marks on the units
- Steady, blinking, flashing, high flashing random frequency or rotating multi-colored LED unit for energy-efficient high priority signaling (colors and light patterns can be selected using 2 dip switches on top of the unit)
- Height adjustment tube that solves the need to adjust height of the tower light
- Flexible mounting unit which supports various customer needs for installation (for use on horizontal or vertical support)
- Power integrated base units with two voltage solutions (24 V ~ and 100 to 240 V ~) which reduces the stock reference for LED units
- High degree of protection against dust and water
- 100% configurable sound
- Innovative concept of controlling the tower light by sending pulse signals in single wire (1)

Illuminated LED units

The XVU range offers the following benefits for illuminated LED units:

- The LED units are visible throughout 360°
- Innovative mirror design of these units improve the brightness
- Pure colors avoid confusion between colors
- The "Super bright" LED technology consumes low power and has long life
- Continuous usage of LEDs up to 40,000 operating hours (2)
- Ultra brightness in 40° visualization
- Homogenous light improves luminosity from side view
- The mixture of homogenous light and pure color improves the aesthetics of tower light and machine
- Polycarbonate lens material for better shock resistance

Mounting

- Height adjustable tube with an adjustment from 210 to 385 mm/8.268 to 15.157 in., mounted on a fixing plate for use on a horizontal support
- Flexible mounting option for use on horizontal or vertical support
- Direct mounting solutions (with two, three and four screws foot print)

Signaling type

- For illuminated units with green, red, orange, blue, and white color: steady, blinking or high flashing
- For multi-color illuminated unit: steady, blinking, flashing (slow or fast) and rotating (slow or fast)
- For audible unit:
 - Buzzer, adjustable from 70 to 85 dB at 1m/3.281 ft (with 4 configurations of audible signal)
 - Customized sound, from 0 to 86 dB at 1m/3.281 ft (with 4 channels dedicated to 4 illuminated units)
 - Pulse signal editable sound from 0 to 86 dB at 1m/3.281 ft (16 channels can be controlled by PLC)

(1) Pulse signals used for signaling are defined using different pulse width following the principle of frequency-division multiplexing

(2) In normal conditions of use (in 25 °C/77 °F environment)

Signaling Units

Modular tower lights

Harmony type XVU Ø 60

Tower lights for customer assembly (up to 5 units)

Presentation (continued)

Environment

The performance features of the Harmony XVU range meet the following specifications:

- Degree of protection:
 - IP 65 for illuminated units
 - IP 54 for audible units
 - IP 55 for flexible mounting unit
- International standards:
 - The whole range conforms with EN/IEC 60947-5-1 standard.
- Product certifications:
 - UL, CSA, CE, CCC, EAC, and RCM

Playlist Builder configuration software window

Software configuration

- The "Playlist Builder" software is used to configure the signals of XVU audible units
- This software can be downloaded from www.schneider-electric.com for free of charge
- It is compatible with Windows XP® and Windows 7® (recommended) operating system
- It allows configuration of audible signals to be set on each 4 channels dedicated to 4 illuminated units

Signaling Units

Modular tower lights

Harmony type XVU Ø 60

Tower lights for customer assembly (up to 5 units)

Description

Tower lights

The XVU tower lights are customer assembled products comprising:

- 1 Top cover (black or silver)
- 2 Buzzer unit (black or silver) (1)
- 3 Illuminated units: (2)
 - 3.1 LED illuminated units with steady or blinking light signaling (colors: green, red, orange, blue, white, or yellow)
 - 3.2 Multi-color LED unit (colors: green, red, orange, blue, white, or yellow. Patterns: steady, blinking, flashing, or rotating)
 - 3.3 Pulse signal multi-color LED unit (colors: green, red, orange, or blue. Patterns: steady, blinking, flashing, or rotating) (3) (4)
 - 3.4 LED illuminated units with high flashing signaling (colors: green, red, orange, blue, white or yellow)
- 4 Sound units (5)
 - 4.1 Sound unit
 - 4.2 Sound unit, pulse signal (4)
- 5 Extender unit (black or silver)
- 6 Base unit, DC (black or silver)
- 7 Base unit, AC (black or silver)
- 8 Flexible mounting unit
- 9 Fixing unit, direct mounting (black or silver)
- 10 100 mm/3.927 in., 400 mm/15.748 in., or 800 mm/31.496 in. pole with integrated fixing plate (black or silver for 100 mm pole, and black for 400 mm and 800 mm pole)
- 11 Height adjustment pole from 210 to 385 mm/8.268 to 15.157 in. (6) with integrated fixing plate
- 12 100 mm/3.927 in., 250 mm/9.842 in., or 400 mm/15.748 in. pole with metal bracket (black)
- 13 Fixing plate for use on vertical support (black) (7)
- 14 1/2" NPT conduit adapter for customer supplied tubing

Composition

- XVU tower lights are customer assembled signaling units that are mounted vertically or horizontally with the support of a mounting accessory.
- Maximum of 5 illuminated units or 4 illuminated units with 1 audible unit can be assembled. Among the illuminated units, maximum of 3 can be high flashing illuminated units.
- With the indicator marks on these units they can be easily assembled.
- Electrical connections between each unit are made automatically as they are mechanically assembled.
- The signaling units are identical in size and their positioning is unrestricted.

Mounting

- Horizontal mounting: Fixed into support panel with fixing plate using direct mounting plate, poles or height adjustment pole with integrated fixing plate
- Vertical mounting: Fixed into support panel with fixing plate using pole with metal bracket or fixing plate for use on vertical support
- Horizontal or vertical mounting: Fixed into support panel with fixing plate using flexible mounting unit
- Fixing plate with aluminium 1/2" NPT adapter.

Cabling

By means of spring cage connection terminal block incorporated in mounting unit (Direct mounting plate, pole with plate, adjustment pole)

- (1) Always mounted on the top
- (2) Up to 5 LED illuminated units without sound unit; Up to 4 LED illuminated units with sound unit
- (3) Pulse signal multi-color LED unit cannot be combined with standard sound unit (XVUC9V)
- (4) Up to 4 illuminated and sound units when pulse signal technology is used
- (5) Sound unit can work without LED unit
- (6) Only for DC body unit
- (7) Compatible with XVUZ02, XVUZ02Q, XVUZ03, XVUZ400, XVUZ800, and XVUZ05
- (8) Sound unit cannot be combined with buzzer unit at the same time
