

## 20A EXTRA HEAVY-DUTY DECORATOR POWER INDICATING HOSPITAL-GRADE RECEPTACLE, IVORY

TR26362HGP11 | [Pass & Seymour](#)

### FEATURES & BENEFITS

Built for the harshest medical environments, P&S power indicating receptacles feature two industry-exclusive green LEDs that offer clear visual assurance of power indication at the receptacle—even with critical equipment plugged into the device. The LEDs operate independently from one another to accommodate split-circuit wiring installations. Tamper-resistant protection comes standard with each receptacle to further enhance safety.

- Dual mechanical shutter system to help prevent insertion of foreign objects.
- Auto-ground clip assures positive ground.
- Easily accessed break-off line-contact connecting tab for fast and easy split-circuit wiring.
- Backed-out tri-drive brass terminal screws for faster installation.
- Internal screw-pressure-plate back and side wire capability.
- Two back wire holes for additional wiring flexibility.
- Corrosion-resistant plated steel strap is locked in to face and back body to resist pulling away from the face/body assembly.
- .032 inch thick brass triple-wipe power contacts.
- Two drive screws anchor steel strap to back body and face where abrupt removal torque is greatest.
- For covering patents, see [www.legrand.us/patents](http://www.legrand.us/patents).
