

Surface-Mount Telephone Boxes

APPLICATION

Leviton Surface-Mount Telephone Boxes are ideal wherever telephone connections are needed. Available in 6P4C, 6P6C and 8P8C configurations, these boxes are durable and easy to install with screw terminals that ensure secure and reliable connections. For connection of monitored security systems, a shorting bars configuration (RJ31X) is also available providing for equipment disconnect upon security system activation and call-out.

SPECIFICATION

The Leviton Surface-Mount Telephone boxes shall be cULus listed and meet FCC Part 68. The Surface-Mount boxes shall be of two pieces, a base with the connector and terminals and a snap on cover. 6P4C, 6P6C, 8P8C, and 8P8C with shorting bars (supporting security system connection) options shall be available to support single or multiple line connections. Telephone boxes shall be supplied with mounting hardware to include screws and double-sided tape. Terminal designation shall be accomplished via color-coded leads supporting quick and simple termination.

FEATURES

- Screw terminal connections provide flexible, secure, and reliable performance
- Finish and color matches Leviton wallplates for a consistent look throughout the home or business
- Available for single 6P4C telephone line connection, 6P6C 3-line connection, 8P8C 4-line connection and 8P8C with shorting bars (for security applications)
- Mounting hardware and double-sided tape included

STANDARDS COMPLIANCE

- cULus Listed
- FCC Part 68
