Renew an existing property, or upgrade the plans for your new build, with solutions that enhance and accentuate your hotel's style and aesthetic, while adding performance, value and insight behind the scenes.

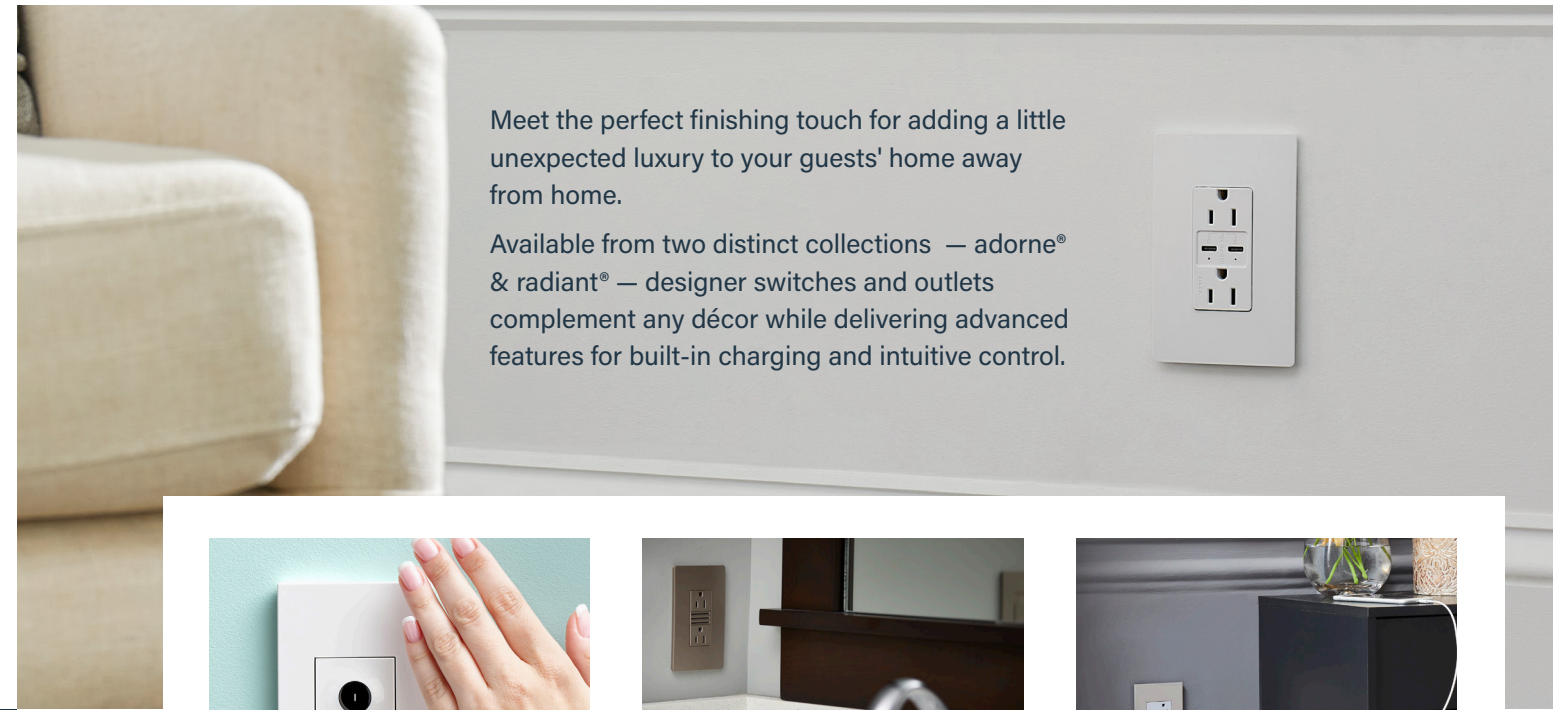

DESIGNER SWITCHES & OUTLETS;

Add exceptional style & innovative functionality.

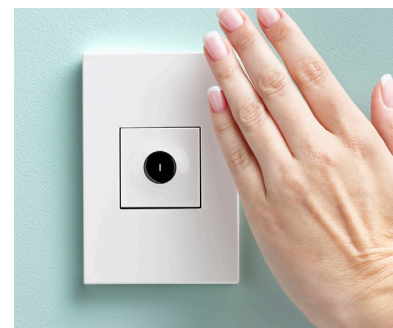

- Perfect for:**
- Conference Centers & Event Halls
 - Guest Rooms
 - Lobbies
 - Meeting Rooms
 - Restaurants & Bars

Choose from over 40 adorne Wall Plate colors and finishes to match trending styles or a classic aesthetic.

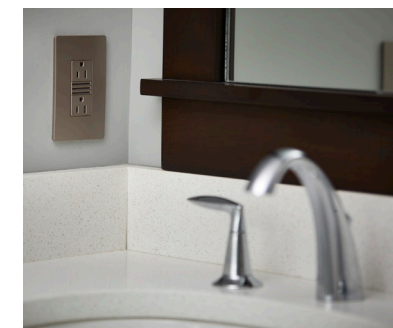

Meet the perfect finishing touch for adding a little unexpected luxury to your guests' home away from home.

Available from two distinct collections — adorne® & radiant® — designer switches and outlets complement any décor while delivering advanced features for built-in charging and intuitive control.

adorne® Wave Switch
Germ-free, worry-free. Opt for touchless control with this switch that turns lights on or off with a simple wave.

radiant® GFCI Outlet with Night Light
Ideal for an en suite bath to provide industry leading ground fault protection and an illuminated strip to help guests navigate at night.

adorne® & radiant® USB Outlets
Add the convenience of built-in USB charging. Available with Type-C Power Delivery ports with an industry leading 65W to support charging needs of modern devices.

DON'T LEAVE YOUR GUESTS IN THE DARK.

Make hitting the lights easier on your guests with engravable paddle switches from the adorne® Collection. Label the master switch or night light to make controls simple for visitors to identify and use.

FURNITURE POWER CENTERS;

Connect guests to modern convenience.

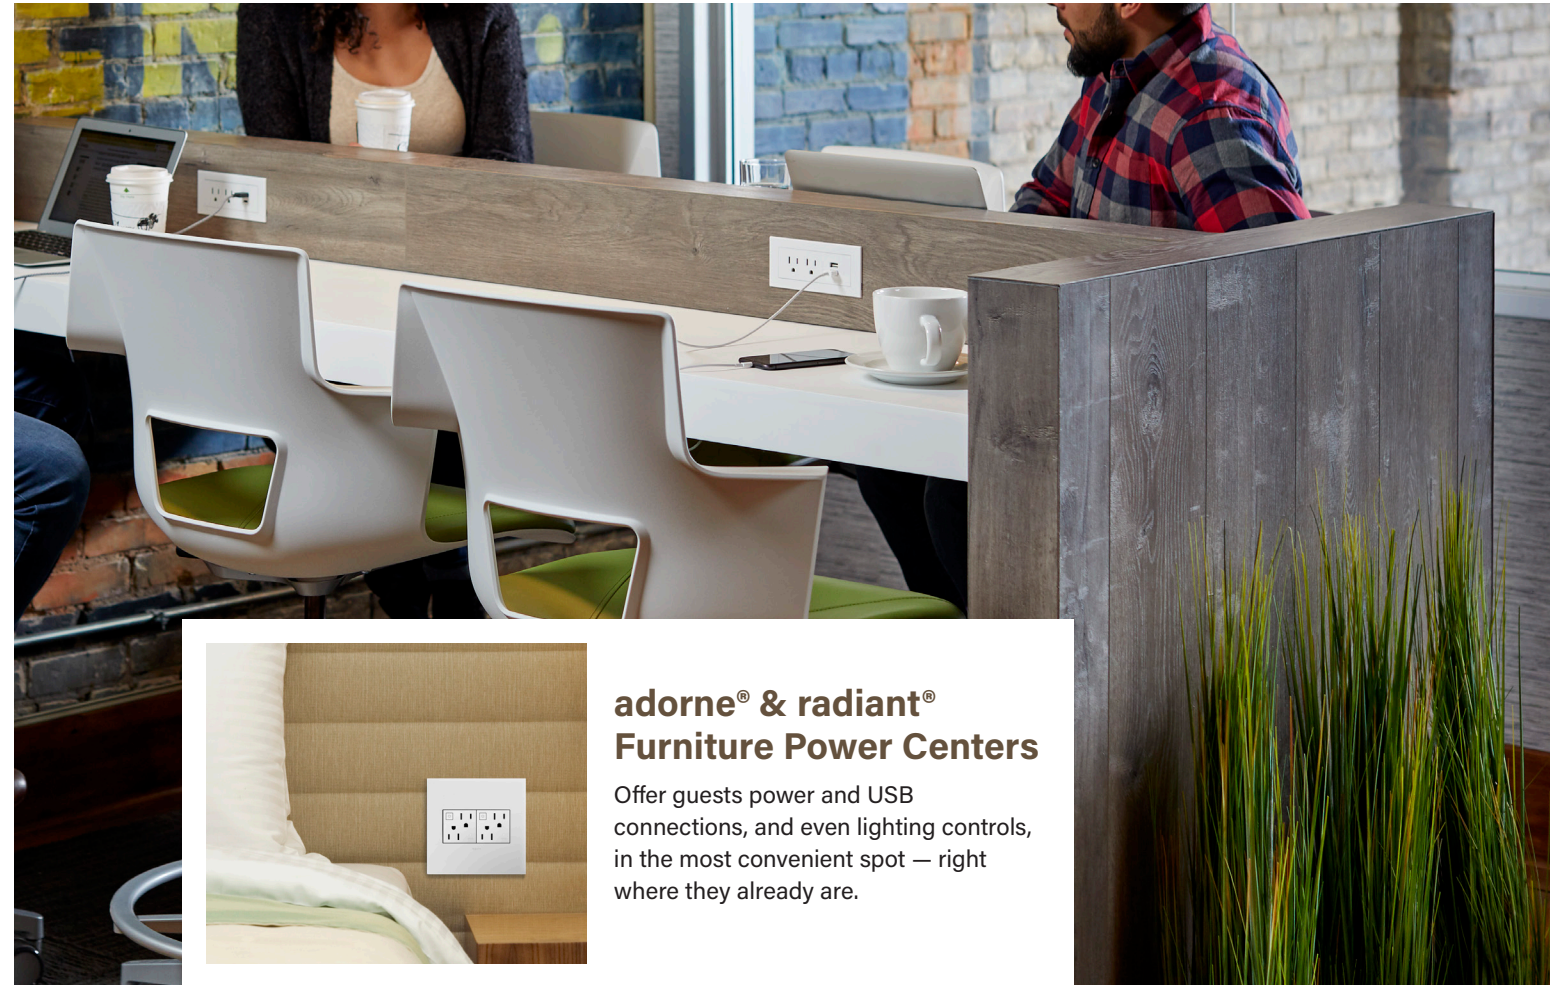

Get additional functionality, masked in design, with Legrand's range of furniture power solutions. Cleverly designed to install directly, and discreetly, into sofas, armchairs, tabletops, bar fronts, headboards and more, the options let you add outlets and USB ports in convenient, guest-pleasing locations all throughout your property, without diminishing the aesthetic appeal. Help guests stay charged and well connected during their stay, without the inconvenience of having to relocate.

Perfect for:

- *Business Centers*
- *Guest Rooms*
- *Lobbies*
- *Meeting Rooms*
- *Restaurants & Bars*

dash™ Configurable Furniture Power Centers

Go for custom-fit convenience that's tailored to your space with furniture power from our dash™ series of configurable solutions. Select from individual cubes for power, charging, data and switching to assemble the solution that's the perfect size, combination and arrangement for your needs. Desktop and power tower versions also available.

adore® & radiant® Furniture Power Centers

Offer guests power and USB connections, and even lighting controls, in the most convenient spot — right where they already are.

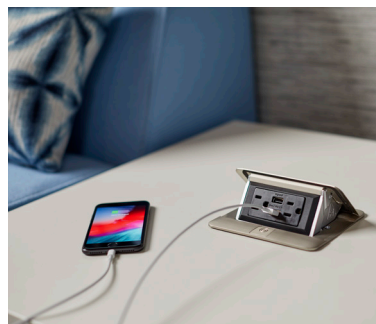

Round Furniture Power Centers

Small but mighty, these circular centers install flush and host a variety of power configurations in their compact package, including options for USB Type-A and USB Type-C.

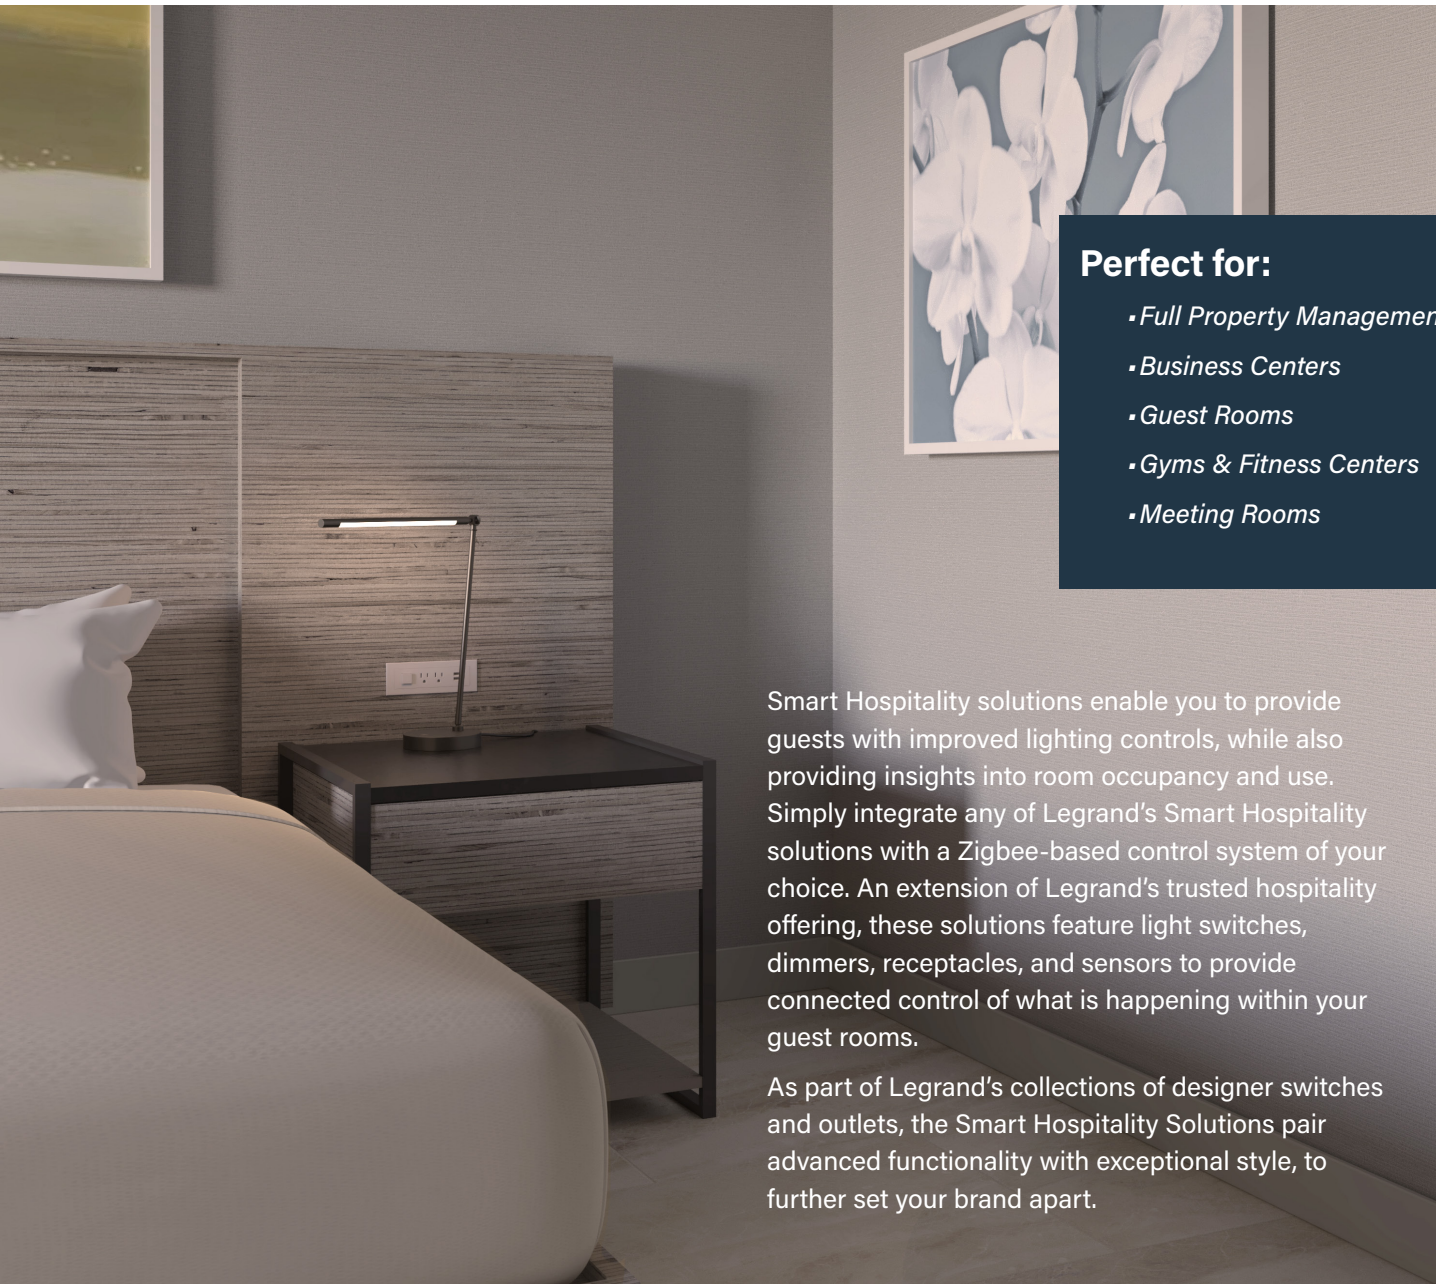

deQuorum Flip-Up Table Boxes

Give them ready access to power and more, directly on the work surfaces and countertops they need to use. Specially designed for areas prone to spills, there's no power solution better for business centers, meeting rooms or even guest room desks.

SMART HOSPITALITY SOLUTIONS;

Elevate every experience.

Perfect for:

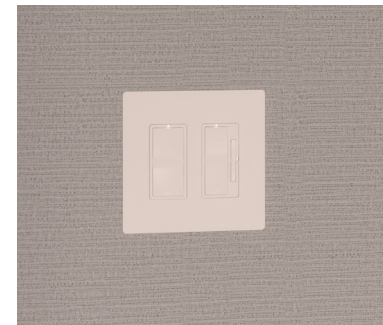

- Full Property Management
- Business Centers
- Guest Rooms
- Gyms & Fitness Centers
- Meeting Rooms

Smart Hospitality solutions enable you to provide guests with improved lighting controls, while also providing insights into room occupancy and use. Simply integrate any of Legrand's Smart Hospitality solutions with a Zigbee-based control system of your choice. An extension of Legrand's trusted hospitality offering, these solutions feature light switches, dimmers, receptacles, and sensors to provide connected control of what is happening within your guest rooms.

As part of Legrand's collections of designer switches and outlets, the Smart Hospitality Solutions pair advanced functionality with exceptional style, to further set your brand apart.

SCALABILITY

Simply start with just a switch or dimmer that integrates with existing management systems or build a complete smart solution to fit your property's needs.

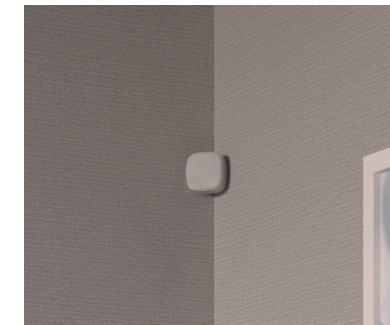

adore® & radiant® Smart Switches & Dimmers

Use smart switches and dimmers to adjust the lighting within guest rooms or other spaces through the ease of automation, tailoring settings to fit occupancy levels, time of day and more.

SAVINGS

Meet code while reducing expenses through smart lighting control, letting you easily optimize energy usage in every room depending on occupancy.

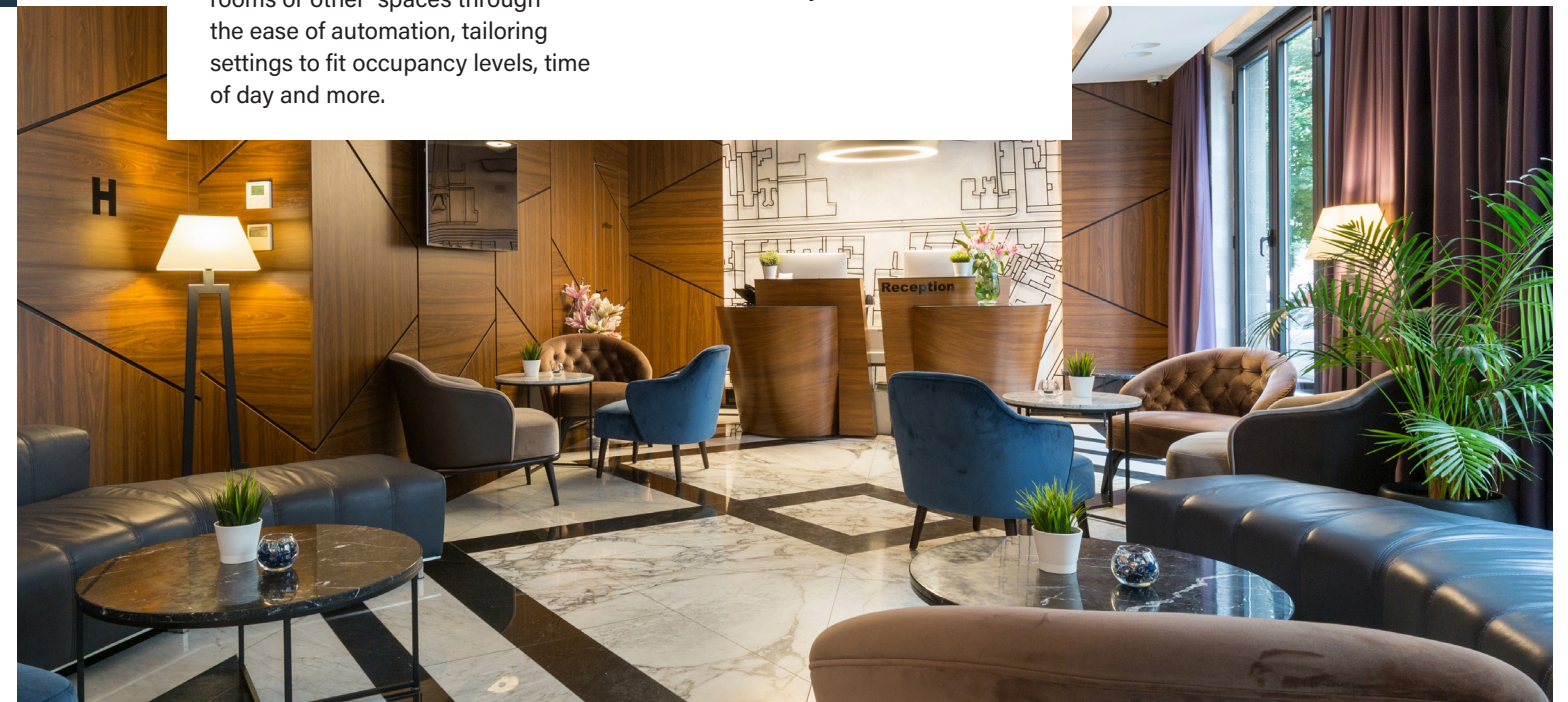

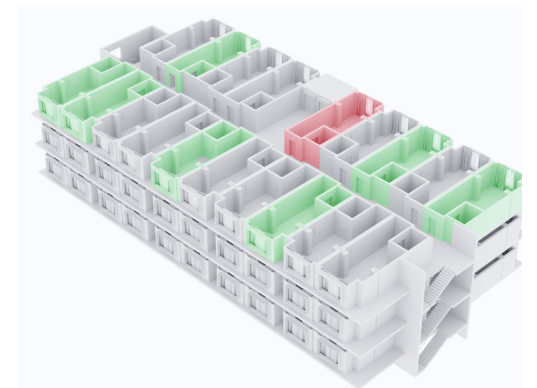

Smart Door and Motion Sensors

Determine occupancy levels and room conditions to help automate your way to energy savings, enhanced safety and more.

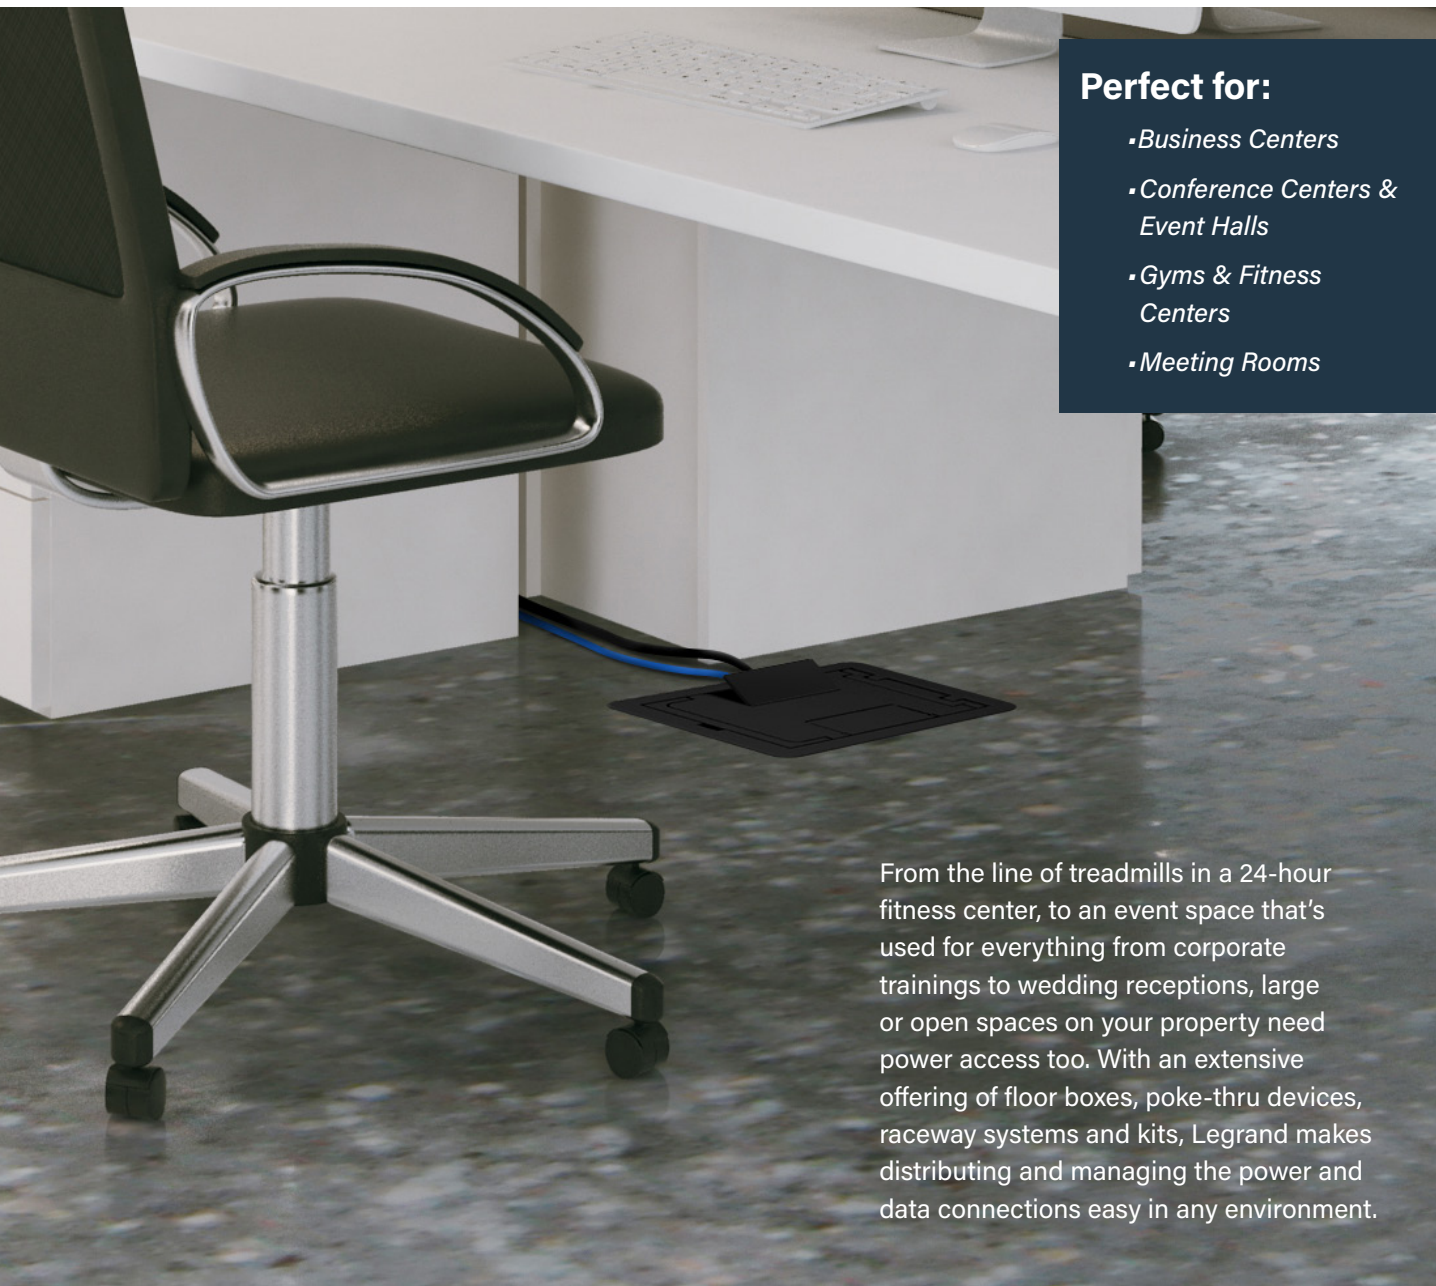

SAFETY

Keep an eye on your whole property at once, with automated condition monitoring that notifies you the moment something needs your attention.

FLOOR BOXES, RACEWAYS & MORE;

Put power wherever it's needed.

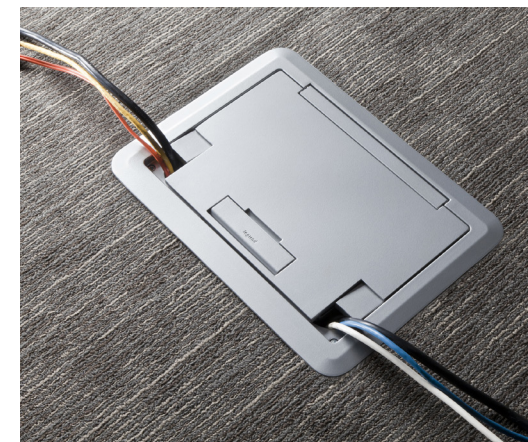

Perfect for:

- *Business Centers*
- *Conference Centers & Event Halls*
- *Gyms & Fitness Centers*
- *Meeting Rooms*

From the line of treadmills in a 24-hour fitness center, to an event space that's used for everything from corporate trainings to wedding receptions, large or open spaces on your property need power access too. With an extensive offering of floor boxes, poke-thru devices, raceway systems and kits, Legrand makes distributing and managing the power and data connections easy in any environment.

Wiremold® Floor Boxes

Customize areas like meeting and event spaces by bringing power, communications and AV connections up through the floor to better suit your needs. Covers in resilient and verstaile finishes ensure longevity and performance, while blending in with existing flooring.

Connectrac® Flex & Express Kits

In spaces where flexibility is key, these modular raceway systems for floor-based power and data delivery are the ideal way to quickly, conveniently and safely run cables and add connections. Arrange equipment and furnishings without relying on walls and poles for power. Adapt the layout in a hurry to accommodate different types of events and needs.

AV MOUNTS, ACCESSORIES & STORAGE:

Direct attention where you want it.

- Perfect for:**
- Conference Centers & Event Halls
 - Gyms & Fitness Centers
 - Lobbies
 - Meeting Rooms
 - Restaurants & Bars

Whether used for work or play, in common areas or guest rooms, screens and displays can be a featured part of your property. Ensure they are securely mounted, aesthetically placed, and can be easily maintained, with quality products and patented designs from Legrand.

Chief® Flat Screen & Projector Mounts

Prep conference centers and meeting rooms with industry-leading mounts fitted to your gear and equipment, making for easier and cleaner installs that hold up to frequent and varied usage over time.

Evolution™ Series Wall Box

Usable in guest rooms and for mid-workout entertainment in the fitness center, this solution easily eliminates cord clutter and mess by helping install flat screens flush against the wall.

OUTDOOR POWER & CHARGING:

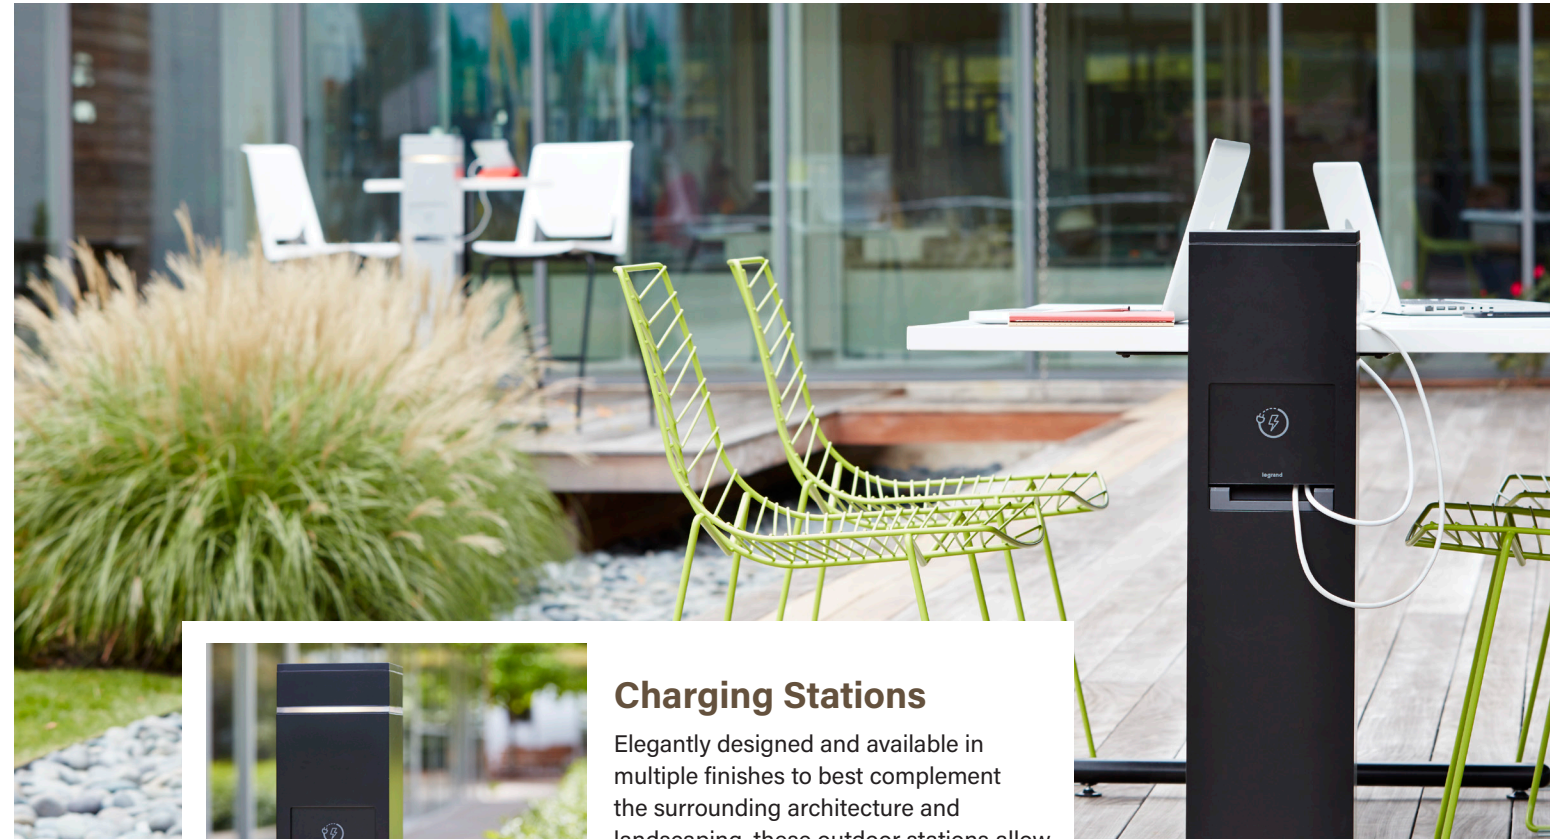

Let guests recharge wherever they go.

Outdoor spaces can be a blissful extension of your property. Ensure guests can enjoy them properly, while also staying connected to the broader world, with Legrand's outdoor product portfolio of power and charging solutions.

Perfect for:

- Gardens
- Outdoor Event Spaces
- Pools
- Restraunt Patios & Outdoor Dining Areas

Charging Stations

Elegantly designed and available in multiple finishes to best complement the surrounding architecture and landscaping, these outdoor stations allow guests to charge their devices whenever and wherever there is a need. The stations also feature built-in LED lights for additional safety and convenience in outdoor spaces after dark.

Outdoor Ground Box

Your property is made all the more versatile with this safe and permanent solution for delivering power, communications and A/V to the extended grounds for hosting outdoor events and accommodating the connectivity needs of your facilities team.

Outdoor Rooftop Box

Provide power access anywhere on a rooftop surface, perfect for outdoor events or furniture needing access to power and eliminate the need for extension cords along the decking surface - providing greater flexibility in power distribution on rooftops.
